

MOUSAM BARUI

Web developer

I am extremely passionate about becoming a web developer because I am fascinated by the endless possibilities and creativity that can be achieved through coding. I am eager to learn and master various programming languages and frameworks to create visually appealing and functional websites that enhance user experiences.

Projects

- Ecommerce Website, Cuberto clone
- Created a simple personal website to showcase skills, projects, and resume. Implement modern web technologies such as HTML, CSS, JavaScript.
- Responsive Landing Page
- created a responsive landing page for a product or service. Showcase understanding of responsive design principles.
- Blogging Platform
- Designed and implemented a blog platform using WordPress, highlighting my skills in content management systems and customization of themes and plugins.
- Weather App
- Created a web app that fetches and displays weather information for a specific location using a weather API.
- To-Do list
- Built a web-based to-do list application with features like adding, editing, and deleting tasks. You can use HTML, CSS, and JavaScript for this.

Technical Skills

- ☐ Web Application Design
- ☐ Web Application Development
- ☐ Bootstrap3
- ☐ Nodejs
- ☐ Python
