Personal Summary

As a Full-Stack Developer, I have a passion for building efficient and scalable web applications. My expertise spans across various technologies including the MERN stack, HTML, CSS, and JavaScript. I thrive on challenges and continuously seek to enhance my skills through new projects. My background in computer science, combined with practical internship experiences, enables me to deliver high-quality solutions

EDUCATION

- B.Tech, Computer Science and Engineering

Bengal Institute Of Technology (2021 - AUGUST 2025)
CGPA - 7.8 (Till Date)

- Higher Secondary, K.V.S (2019 - 2021)
81.8%

SKILLS

- Front-End: HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- Back-End: Node.js, Express.js, MongoDB, MySQL
- Programming Languages: Java, Python(Machine Learning)

SOFT SKILLS

- Problem Solving
- Analytical Thinking , Team Work
- Adaptability , Time Management

CERTIFICATION

- [Google CyberSecurity \(Coursera\)](#)
- [React Course \(Udemy\)](#)

PROJECT

- [Uber Clone – Full-Stack Ride Booking Application](#)

-Built reusable React components with state management for dynamic UI updates.

-Implemented JWT-based authentication.

- [To - Do List App](#)

- Built a dynamic web-based to-do list application enabling users to add, edit, and delete tasks.

- [Hotel Booking Platform](#)

- Designed a visually appealing hotel booking platform with seamless navigation and interactive animations.

- Utilized Tailwind CSS to ensure a responsive and engaging user interface across devices.

- [Healthcare Monitoring System: Diabetes and Heart Stroke Prediction](#)

- Developed machine learning models (Logistic Regression) to predict diabetes and heart stroke risks, achieving 80% accuracy.

- Conducted data preprocessing and feature engineering to prepare datasets for training.

INTERNSHIP

- [InternCoderz | Front End Developer](#)

August 2024 - December 2024

- Crafted and executed the InternCoderz website using HTML, CSS, and JavaScript, implementing responsive design and dynamic UI to enhance interactivity and improve page load speed.

- [CodeSpeedy | ML Intern](#)

April 2024 - June 2024

- Contributed to machine learning projects and gained hands-on experience in implementing and optimizing ML algorithms for real-world applications.

- [Shripti Education | Full-Stack Developer Intern](#)

July 2024 - September 2024

- Developed a full-stack educational platform with user authentication, course management, and progress tracking in a team collaboration.
